Overcote Ferry. The scenery on the banks of the Great Ouse possesses a charm which particularly endears it to the many lovers of the peaceful grazing lands and meadows of England. Trees line the river banks and grass grows right down to the water's edge, providing food and cool shade for the many herds of cattle; such a spot is Overcote, where the High Road crosses the river here negotiated by means of a ferry.

Wishing you many happy returns of the day With love from Alice
